

Water shooter target.

What you will need:

- Chalk
- Fence/brick wall
- Water shooter/water Balloons

Firstly draw the letter P on you chosen surface. Don't worry chalk will wash away from most surfaces. So don't worry about the mess!!

Make sure that you show your child the letter P before hand, and place an emphasis on the sound the P makes.

Then ask your child to spray each letter 'Pp'

This is a great way to help with letter recognitions and a fun way to learn letters.

This game is suitable for both older and younger children.

Once your child is more confident in recognising the letter Pp add more letters into the mix to challenge there knowledge.

Remember to wear sun cream and a hat if outside.

Have fun

Tracey.
